

# Flocking Module FM440-580

**Single-** or **multi-colour flock** (for each colour, a separate flocking module is required)

Dazzling new designs **combining print** and **flock** are now possible

No other operations required

The operator can **combine flocking and printing** on a single **MHM** screenprinting machine and thus **saves time and money**

The flock process can be set **automatically** (flock time, flock intensity)

The MHM flocking module can be added **flexibly** to any **printing station**

**100% compatible** with the **MHM S-Type** and the **MHM Synchroprint 4000**

Electrostatic generator (100 kV max.)

Maximum flock area **440 x 580 mm / 17" x 23"**
